¹ Samples were delivered by the Client.

² UAB Biosyyd applies the acceptance decision rule in accordance with ILAC-G8:09/2019: if measurement plus minus expanded measurement uncertainty meets specification requirements, the parameter is stated as compliant.

³ Given expanded measurement uncertainty was estimated for the coverage factor k = 2 at 95 % confidence level. Sampling uncertainty has not been taken into consideration.

⁴ Test method is accredited.

⁵ Test performed on Cannabis Sativa raw material in Third party laboratory.
